TRIP DETAILS

Reconnect with the one you love whilst discovering our dramatic scenery and inspiring landscape. Jersey is full of experiences to share and enjoy, with its Boutique Spa hotels and Michelin-starred restaurants added to the natural beauty of the countryside and coastline.

DISCOVER TOGETHER

Exploring Jersey's stunning landscape hand in hand can be done all year round. Whether you are sinking your toes into the sun kissed sand in summer or wrapping up warm to brave the elements in autumn, walking in Jersey is the ultimate way to get back to nature.

Thanks to our astonishing tides, at low tide the island almost doubles in size, making the beaches wider, sandier and even more spectacular. Classic backdrops for beach walks are the wide stretch of St Brelade's Bay and the pine-edged headland halfway across the beach, the picturesque stroll down to the sandy bay at Beauport or the beautiful beach at Plemont, revealed at every low tide where you can discover naturally formed caves and stroll along the water's edge.

With [self-guided walks](#) available to download you can wind your way through country lanes or traverse the north coast cliff paths at your own pace. Why not plan a sunset picnic on the beach? With [picnic spots](#) scattered all over the island pick up local produce from one of island's farm shops and enjoy an authentic taste of Jersey with a unique backdrop.

Top tip...

The best spots for uninterrupted sunset views are along St Ouen's Bay where you can find a sheltered spot along the sea wall to share a seafood picnic and a glass of wine and watch the sun sink into the sea together.
